Millennium Eye Center

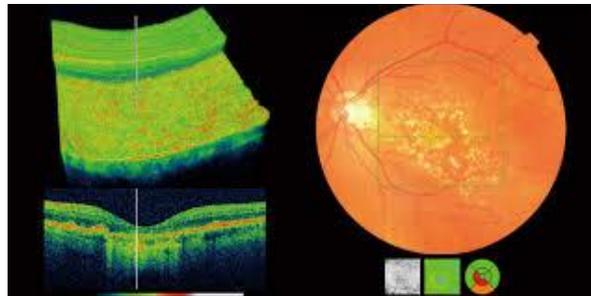

## **DISCOVER THE SECRETS OF YOUR EYES!**

---

With the new Justin Retina Screening for eyes, we can now **DETECT** signs of the three leading causes of blindness in the early stages and develop immediate treatment plans to **PREVENT** loss of vision. In most cases, all we find are healthy retinas. That's why our doctors want you to get this screening done today!

This Retina Screening is essential for all patients especially those with a history or family history of **diabetes, high blood pressure** and other diseases, such as **headaches or a strong eyeglass prescription**. In this screening, there are...

No Needles!  
No puff of air!  
It's Quick and Pain free!

## **HOW DOES THE JUSTIN RETINA SCREENING CHECK THE EYES?**

---

This new technology provides a 30 to 45-degree photograph and laser evaluation of your retina, optic nerve and blood vessels. This attention to detail is important as some eye conditions and other medical issues can be detected by comparing small changes over time.

To perform the procedure, our technician will ask you to look through an eyepiece attached to the instrument which is like looking through a pair of binoculars. You will be asked to look at a target cross, before a flash goes off.

Our doctors will then discuss the results with you and the images will be kept safely on file.

## WHAT OUR PATIENTS ARE SAYING ABOUT THE JUSTIN RETINA SCREENING

---

*"I'm glad I had the retina screening, now I can sleep easy knowing that my eyes are healthy."*

Sarah Miller, Orlando, FL

*"The retina screening was quick and painless, and I'm glad I did it. Now I know how important it is to take care of my diabetes. I did not know you could see all that through my eyes. Amazing!"*

Ramon Diaz, Windermere, FL

## ANSWERS TO FAQs ABOUT THE JUSTIN RETINA SCREENING

---

1. Does my insurance pay for the retina screening?
  - Some insurance plans cover this procedure with a copay up to \$39. We can tell you what your copay will be once we verify your individual benefits.
2. Do I need it or do I have to get it?
  - Our mission is to care for you with excellence and because of that we believe in providing the most cutting edge care available. That is why we make this procedure an essential part of your care. The retina screening can help us detect signs of the three leading causes of blindness and prevent loss of vision. That is one of the ways we keep our commitment to you!
3. Can I reschedule the retina screening?
  - No, it is performed on the day of your visit as part of preliminary testing.
4. Is my exam not complete or limited without the retina screening?
  - Our doctors always perform a comprehensive eye examination for all of our patients. However, the retina screening is a very important enhancement to your examination and allows our doctors to give you cutting-edge care for your eyes.
5. Is it needed if it's a child?
  - Yes, this screening is recommended for patients of ALL ages as long as they are physically and mentally capable of performing the procedure.
